

# When your medication isn't working, **COPD** interrupts your life.

TRONARTO™

If you are 40 years of age or older, and have been diagnosed with **moderate to severe COPD**, learn about a clinical study of an investigational drug delivered through an inhaler.

To potentially pre-qualify for this study, you must:

- Be 40 years of age or older
- Have been diagnosed with moderate to severe COPD
- Be a current or ex-smoker

There are additional eligibility criteria that must be met in order to qualify for the study. All study-related care and assessments will be provided at no cost. In addition, reimbursement for study-related time and travel may be provided.
